5.02.POL Pest Management

Effective/Revision Date: 11/11/2021

Page 1 of 1

Ogden Preparatory Academy (the School) is committed to providing a safe environment for our students and staff. We recognize that, to provide a safe environment, it is important to protect students from exposure to both pests and pesticides.

The School has therefore adopted the Integrated Pest Management (“IPM”) approach to pest control in accordance with Utah state law. IPM is an ecologically based pest management strategy that seeks to provide long-term solutions to pest problems with minimum impact on human health and the environment. The IPM approach minimizes the exposure of students and staff to pesticides by incorporating a variety of non-chemical and chemical methods to prevent and eradicate pests.

The Administrative Team is responsible for ensuring that the IPM approach is implemented in accordance with Utah Administrative Code R392-200-7(12). A detailed handbook describing how IPM is achieved shall be located in the front office of both buildings.

Document History

Approved: 12/10/2014

Revised: 11/11/2021 *Updated to change Principal to Administrative Team and to clarify IPM.*
